THE DOCTORAL PROGRAM

The doctor or PhD Degree will be awarded by the French partner school or university

CFVG DOCTORAL STUDENTS ARE IMMERSSED IN A DYNAMIC LEARNING ENVIRONMENT DURING THE DOCTORAL SCHOOL AND GET OPPORTUNITIES TO MEET AND BE SUPERVISED BY PROFESSORS OF FOUR LEADING FRENCH UNIVERSITIES AND BUSINESS SCHOOLS. THEY HAVE CHANCE TO BENEFIT FROM FRENCH EMBASSY'S EXCELLENCE SCHOLARSHIP OR GRANTS BY THE PARTNER UNIVERSITIES.

EDITORIAL

“Founded in 1992, CFVG has been a pioneer of high-level management education in Vietnam. Since its foundation CFVG has remained close to the needs of training for Vietnamese and foreign companies. Its network of almost 3000 alumni, spanning across different positions at all levels in companies and government bodies, is a strength which allows CFVG to serve the needs of the corporate and economic world in Vietnam.

CFVG's expertise in networking with partners of very high international standard brings a unique opportunity to launch a doctoral program, in line with the objective of Vietnamese government to produce a large number of doctoral level teachers and researchers. This program is conceived with the support of the CFVG's partner universities, the National Economics University and the University of Economics in Hochiminh City, and a

consortium of four French prestigious institutions. In today's competitive world, the quality of universities and, more generally, the progress of countries depend on research. This is obviously true for management science and application.

CFVG doctoral students are immersed in a dynamic learning environment during the doctoral school and get opportunities to meet and be supervised by professors of four leading French Universities and business schools. They have chance to benefit from French Embassy's Excellence Scholarship or Grants by the partner universities.

We hope that a large number of candidates will get the opportunity to follow, with our foreign partners, such a prestigious way to lead, to advance research and careers in their universities or companies.”

Pr. Dr. Jean Louis Pare
Director of CFVG

Dr. Bui Thi Lan Huong
Academic Director of
CFVG Doctoral program

14. Entrepreneurship & Innovation	12
VII. Additional coursework	
2 modules of MBA, MEBF, MMSS or other Masters delivered at CFVG	60
Total	240

THESIS WRITING

During the first year of the doctoral program, CFVG students get many opportunities to seek a supervisor from one of the 4 French partner universities who is an expert in the area they wish to investigate. Identification of a dissertation topic and selection of the supervisor must be by mutual consent. The doctoral student's thesis that must show that the candidate has technical mastery of the field and is capable of doing independent research. This study must enlarge or modify current knowledge in a field, present a significant new interpretation of known materials or at least provide a relevant literature review to

prepare the dissertation work of the following years.

At the end of the first year, students are required to defend their thesis orally. A student's thesis supervisor does not automatically become a student's dissertation supervisor. However, students are invited to carefully think about the choice of the thesis topic and supervisor in order to establish a consistent long term relationship throughout the doctoral program.

THE DOCTOR OR PhD DEGREE WILL BE AWARDED BY THE FRENCH PARTNER SCHOOL OR UNIVERSITY

ESCP EUROPE
www.escpeurope.eu

ESCP Europe is both a high-level school of management with international scope and a large-scale European institution. It was founded in Paris in 1819 and, since then, has educated generations of leaders, contributing to the high reputation it enjoys today. The school benefits from all the 3 main international accreditations: AMBA, EQUIS and AACSB.

The Ph.D program of ESCP Europe aims at professors researchers for high-level management academic institutions. Its core values

are based on an active participation of the students in their learning as well as on a personalized student track, consisting of courses on general methodological approach to research as well as a teacher-training seminar through direct involvements in diverse ESCP EUROPE programs, which add up to 300 hours of courses.

Students are closely linked to the researching and teaching activities of the faculty members and are given three years to fully conduct their personal research project.

LILLE 2 UNIVERSITY
<http://www.univ-lille2.fr/>

Lille 2 University has joined the "Pôle Lille Université Nord de France" cluster, an innovative grouping of educational, economic, and governmental institutions. Its mission is to promote the higher education and research capacity presented by Lille Metropole, the fourth - largest metropolitan area in France.

Research is a key activity in the cluster, with 3,750 research faculty and research scientists and 200 laboratories affiliated with or recognized by national research bodies (CNRS, INSERM, INRA, INRIA, Institut

Pasteur, Onera, and others). More than 800 international faculty and scholars are welcomed each year, most by a dedicated mobility center. There are currently 3,000 doctoral candidate and trainees.

CFVG doctoral students will get the opportunity to join the research team of the "Faculté, Finance et Comptabilité" of Lille 2 University. This team belongs to the Lille School of Management Research Center, one of the major networks in management research in France.

PARIS DAUPHINE UNIVERSITY
www.dauphine.fr

Created in 1968, the "Dauphine University Centre" was recognized as a fully-fledged university two years later. Since its creation, Paris Dauphine University has enjoyed considerable autonomy in terms of scientific and teaching innovations and has developed a strong identity which today unites its academic and administrative staff and students. It has received the EQUIS accreditation in 2010.

The management science doctorate is a high level training that prepares to academic and researching professors careers. During the preparation of the

doctoral dissertation, students must validate about a hundred hours of teaching and activities planned in the Management Doctoral School framework before defending their dissertation.

This program includes fundamental transversal courses articulated around epistemology and management research methodology, for the first year (D1). During the second year (D2), the students must choose research seminars linked to his topic either in Dauphine University or other institutions. The third year (D3) is devoted to the redaction of the dissertation.

UNIVERSITÉ DE STRASBOURG
www.unistra.fr

The University of Strasbourg is the largest university in France, with 43,000 students and over 4,000 researchers. The present day French university traces its history to the earlier German language University of Strasbourg, which had been founded in 1631.

The Augustin Cournot Doctoral School gathers almost all the research training programs in economics, management and social studies on science and technology offered at the Strasbourg universities. The Augustin Cournot DS offers a large scope of original training courses based on well-established research traditions in the host research laboratories and well known

at the national as well as the international level.

Five research labs from the Doctoral School and host the doctoral students:

- Bureau d'Economie Théorique et Appliquée - BETA
- Laboratoire de Recherche en Gestion et Economie - LARGE
- Centre d'Etudes des Sciences Appliquées à la Gestion - CESAG
- Gestion des Service Publics GSP
- Institut de Recherches interdisciplinaires sur les Sciences et la Technologies - IRIST
